

Accessibility Information for The Mill

The Mill has an accessible entrance from Angas Street, however you will need to use the pedestrian ramp from Gunson Street as there is a step from the road to the footpath on Angas Street and there are car parks out the front of our building.

As of August 2021, there are roadworks on Gunson Street that have blocked off the street halfway. Vehicles can still access the first part of this street, where the pedestrian ramp is located, however it can be busy and trucks and heavy machinery use this street as an access point.

The footpath outside The Mill is bitumen and our internal flooring is concrete throughout.
