

Dance of the Druids Information

Dance of the Druids

Thank you for joining the circle!

In this workshop we will learn the Dance of the Druids. Each workshop runs for one hour and is followed by a full performance of the dance, in time with the setting or rising of the sun.

Circle dances have their own unique power if we allow ourselves to surrender to the magic of the movement. This sequence is inspired by celtic tradition and respects the deeply spiritual elements of druid dance. We hope that you will feel emotionally moved by the spinning and the enchantment of dancing with intention in community.

The intention of both sessions is to honour the seasons of change, within and without. On March 2, we welcome the dark moon and its introspection, sowing the seeds for new growth as the sun sets. On March 19, we honour the brightness of the full moon and seeds come to fruition as the dawn breaks.

Never ones to be completely serious, we also work to honour the (much newer) worship of Jamie and Claire Fraser. Therefore, we are sitting within a joyful space of acknowledging and indulging in fantasy, which is where the seeds of all true magic lie...

Circle dance relies on and relishes community! As such, if you can no longer attend, please advise us at lonelybootcreations@gmail.com.

Please wear white to enhance our sense of community and connectedness (and to make us look way more legit :P).

We ask that you are punctual as we are bound by the movements of the sun and wouldn't want to miss that beautiful light as it sets/rises.
