

THE BUNKER

Additional Information

Audience members are encouraged to actively participate in the show, as led by the host.

As the show leans heavily on audience discussion, it is recommended that participants are comfortable speaking in a group setting, and have a conversational level of English.

The Bunker is an interactive experience, where participants' input shapes how the narrative plays out.

As such, each show is a unique experience and triggering situations may be presented for exploration. If at any stage you feel uncomfortable beyond what could normally be expected for a piece of interactive theatre, please let the host know.

Due to the non-theatre spaces The Bunker may be performed in, not all venues will be easily accessible for wheelchair and other limited-access audience members. Please consult the ticketing and venue descriptions to see which performances will be right for you.
